Please outline the assessments you plan to use and what aspects of learning they evidence, please refer to subject specification:	Learners complete the Individual Project and one other Challenge of their choice The Individual Project provides the learners with the opportunity to apply all seven skills and through the completion of a Challenge alongside this demonstrates they can apply skills in different context. Students choices are Global or Enterprise
When do you plan for learners to undertake these assessments?	Project completed by 8th January 2021 Global completed February 2020 Enterprise to be completed April 2021
How will you ensure that these assessments are delivered consistently by each teacher in the subject?	All students will be in the same google classroom and receive the same information on each of these assessments. Internal Quality Assurance procedures Managing and selecting challenge briefs within the centre.- All students will be given the same briefs.

	<p>Challenge briefs will be taken from WJEC and they will be contextualised by amending the sections within red in the brief; this will be completed by HG and RWI. Before the challenges are set there will be consultation with Arwel the regional link to ensure they meet WJEC criteria. The briefs will not be issued until there has been formal confirmation from the RSO.</p>
How will you ensure consistency in the marking of the assessments?	<p>Assessment of candidates work</p> <p>Candidates work is assessed by their nominated assessor. Feedback is given orally and in written format. This process follows the requirements of the challenge briefs to ensure that the control requirements are met.</p> <p>Assessment of evidence will be made against the performance bands within the specification. All assessors are required to highlight where learning performance and performance bands have been achieved.</p> <p>Students have 2 weeks to appeal marks and if they appeal the work will be assessed by a different assessor. If the marking is outside of a 3 mark tolerance then that assessors marking will be reviewed.</p> <p>The standardisation and moderation procedures outlined in the Skills Development file 2020- 2021</p> <p>Copies of standardisation and moderation paperwork- included</p> <p>Grading</p>

Using total UMS from the component evidence, and apply the normal grade percentages.</p> <table><tr><th>Grade</th><th>E</th><th>D</th><th>C</th><th>B</th><th>A</th><th>A*</th></tr><tr><th>%</th><td>40%</td><td>50%</td><td>60%</td><td>70%</td><td>80%</td><td>90%</td></tr></table> <p>Examples</p> <ul style="list-style-type: none">A learner achieves a raw mark of 58 in the Project and 26 in Enterprise and Employability Challenge. Using UMS converters this gives 122 and 39. $122+39 = 161$ 161 out of 210 = 77% This equates to a grade BA learner achieves a raw mark of 43 in the Project and had a result from WJEC for the Community with a UMS of 35. 43 converts to UMS of 99 in the Project. $99 + 35 = 134$ 134 out of 195 = 68.7%. This equates to a grade C.	Grade	E	D	C	B	A	A*	%	40%	50%	60%	70%	80%	90%
